THE GOAL

Speak in simple sentences, recognize key story words,
and answer easy questions in Spanish.

How to use this kit

10–15 minutes a day. No perfection required — the goal is talking, not memorizing.

1. One prompt a day.

Each day has one ¿Qué prefieres? question. Everyone answers in Spanish — even one sentence counts.

2. Always add a porque.

After choosing, say why: “Prefiero ___ porque ___.” That one sentence is the real speaking workout.

3. Tap any Spanish word to hear it.

On a phone or tablet, tap a Spanish word and it opens SpanishDict — tap the speaker icon to hear a native speaker say it.

4. Say it out loud.

Reading silently doesn't build speaking. Voices on, even if it's silly. Especially if it's silly.

5. Use the pictures.

Every prompt and word has a picture so beginners know what it means even before they can read the Spanish.

6. Repeat favorites.

Repeating a prompt a second time is not cheating. It's how fluency is built.

How to read the pronunciation guides:

ah = a (casa = KAH-sah) • eh = e • ee = i • oh = o • oo = u • rr = rolled r •
Capital letters = the stressed syllable.
